FOR IMMEDIATE RELEASE

Midwest Motion Products of Watertown, Minnesota, is pleased to announce the release of a new, completely updated "E-Catalog" on CD ROM. The CD is designed for easy navigation featuring individual files for Motor and Gearmotor products, sorted by VOLTAGE, and by SIZE. Voltages begin at 6 VDC up to 120 VDC, and sizes range from 10mm diameter to 220mm in body diameter. **Anyone viewing our website at www.midwestmotion.com is able to click on "Request Information" which prompts an email form that is addressed directly to our Sales Department..**

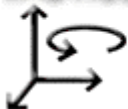

The recipient can also view separate files that describe the company's Motor Speed Controls and Servo Amplifiers, ranging from 1 KW to 4.3 KW, Non-Geared motors, and typical ServoMotor Options that include Failsafe Brakes, Integral Tachometers, and Optical Encoders. There is a separate file for unique Application descriptions & Photos. General Information about the company is also available, including a listing of Products normally kept **IN STOCK** to satisfy rapid prototyping requirements for the Design Engineer with a critical need.

The company offers a variety of standard equipment including multi-axis drive and control configurations, DC power supplies, DC servomotors and gear-motors. Custom Motor Shaft and mounting configurations are also available. Typical applications include Battery Operated Motors & E.V. drives, Medical, Mobility / Accessibility products, Robotics & Automation including Ordnance Disposal Robots, Semiconductor Processing Equipment, Actuators, Packaging & Labeling Machines, Metalworking Machines, and many other applications requiring precise motion control.
