1.3 GPM

*ELECTRICAL RATING*  
120V - 60 Hz

USE: 'when a garden hose just isn't enough...' - Designed for local home use, is perfect for small everyday household cleaning projects-saving time, effort and water.

#### FEATURES: it comes with great features!

2 speeds system (PATENTED) gives a wider and easier way of use. By means of the two rotary positions of the switch it is possible to select the right pressure level for the use one must make by acting on the rotation regime of the motor. For gentle cleaning such as garden furniture, curtains, varnished surfaces, cars, motorbikes, select the LOW position. For cleaning on more resistant surfaces to remove stains such as moss or mold from terraces and walls, select the HIGH position

#### Product Description

MIRAGE 1400 PSI pressure cleaner is a two-wheel trolley mounted unit. It is fitted with Triplex pump with axial pistons controlled by wobble plate. It has an automatic safety valve with low pressure by-pass. It features 'Total Stop System' for automatic start/stop: the electric motor starts when the trigger is pulled and stops when the trigger is released, giving you complete machine shut-off at the trigger gun and extending pump and motor life. It comes equipped with: durable universal motor, detergent tank (capacity 0.13 Gpm), integrated accessory holder for easy storage and easy access to the accessories, water filter to eliminate debris, H.P. soft type hose gun.

A safety lock prevents the trigger from accidentally engaging when not in use.

#### Includes two lances:

- **adjustable spray wand** with pencil and fan jet settings, to be used in any washing situation.
- **rotary nozzle** to increase the cleaning effect by up to 50% over regular fan-jet nozzles and thus removing stubborn dirt.
