Max 1600 psi

FLOW RATE
1.6 GPM

ELECTRICAL RATING
120V - 60 Hz

USE: 'the perfect solution if you're looking for higher performance and an elegant design to accomplish your regular cleaning tasks ...'

FEATURES:

TEAM 1600 PSI pressure cleaner features a powerful induction motor and AR Triplex pump with axial pistons controlled by wobble plate. Equipped with trolley -for a more comfortable transport, automatic safety valve with low pressure by-pass, 'Total Stop System' function on trigger gun-machine only runs while you work (washer starts and stops when the trigger is pulled and released, granting longer pump and motor life), detergent tank (capacity 18 oz), H.P. soft type hose gun. The built-in accessory holder allows you a quick access to the accessories and lets you store everything right. The upright, ergonomic design of this unit makes it easy to maneuver and requires a convenient storage space.

A safety lock prevents the trigger from accidentally engaging when not in use.

Features **both:**

- **adjustable spray head** with pencil and fan jet settings that allows pressure to be adjusted for different cleaning jobs
- **turbo nozzle** to improve the washing effect and achieve a high area of coverage.
