

Plunger Pumps

FEATURING

MANIFOLD: High strength forged brass for long term use.

BOLTS: Four 10mm grade 8.8.

PISTONS: Ceramic coated stainless steel for longer pump life in harsh environments.

CRANKCASE: Precision die-cast, large cooling fins for maximum heat dissipation.

BEARINGS: Oversized for maximum life and load disbursement, a large angular contact ball bearing stabilizes the crankshaft and one thrust bearing absorbs the plunger load to assure long radial plate life. All of the thrust plates are made of heat treated hardened steel for extended use hours.

VALVES, SEATS, AND SPRINGS: Stainless steel with specially designed Ultra Form cages provide that are impervious to water absorption and provide long life and positive seating.

SEALS AND V-PACKINGS: Continuously lubricating for extended life.

UNLOADER: Built in manifold of pump to optimize performance while reducing setup time. Integral trap pressure, fixed or adjustable chemical injector.

DIMENSIONS

BKV

D version
Hollow shaft pump $\varnothing 1"$ 

SPECIFICATIONS

SPECIAL NOTE: Use only AR64545 for the XJ/SJ/BK Series pumps only: Do NOT change oil. Use oil only to add if low. This oil is a specially formulated synthetic with special additives for the demands of the XJ, SJ and BK pump series. No other oil is factory approved for these pumps, and could result in pump failure.
