FEATURING

MANIFOLD: High strength forged brass or nickel plated for long term use.

BOLTS: Eight 10mm grade 8.8.

PLUNGERS: A special ultra thick solid ceramic for long life, strong durability and more resilience retaining bolts.

CRANKCASE: Precision die-cast, large cooling fins and anodized for maximum heat dissipation. Bayonet style sight glass located in the rear and side cover, fill and side and bottom drain plugs.

BEARINGS: Oversized premium SKF tapered roller bearing for maximum life and load disbursement.

BEARINGS SUPPORTS: Precision die-cast and machined to assure concentricity and alignment.

VALVES, SEATS, AND SPRINGS: Stainless steel with specially designed Ultra Form cages to provide long life and positive seating. O-Ring and back-up ring provide longer life and better performance at high pressure.

SEALS AND U-PACKINGS: Continuously lubricating for extended life. Triple lip oil seal for assured crankcase seal.

PLUNGER RODS: High strength stainless steel, for heavy duty use.

CONNECTING RODS: Two-piece special alloy aluminum based material, oversized for maximum strength, load disbursement, and long life. Heavy pin area construction, for added load strength.
