Specialists in Fluid Sealing

Seal Repairs

We repair the simplest to the most complex seals, from lapping to completely rebuilding. We also sell new mechanical seals for Chemical, Hydrocarbon, Paper, Power Gen. Marine, Mining, Wastewater, Food, Co-Generation and General Industrial applications.

New Seals

Teflon® Parts

Teflon® parts in all shapes and sizes V-Packings, Gaskets, O-Rings, etc..

Spiral Wound Gaskets

Standards and custom made spiral wound gaskets with a full range of metal grades and fillers that include Flexible Graphite, Teflon®, Ceramic, and non-asbestos materials. Custom heat exchanger gaskets and boiler hand and manhole gaskets too!

Our Company

American Seal and Packing. was founded in 1989 In our **17 years** as a company we have established both large and small accounts with end users, distributors and original equipment manufacturers. That success has been due to a basic philosophy of taking care of the customer's requirements first.

All Types of Seals

We offer a full range of sealing products including: Braided Packing, Gasketing, Mechanical Seals, Mechanical Seal Repairs, Teflon® products, Flexible Graphite, etc... If it seals we probably carry it!

Teflon® Joint Sealant

ISO registration is one of the things we look for in the manufacturers we represent to help assure our customers of quality.

Gaskets /Gasket Material

We provide sheets or cut gaskets from: Compressed Non Asbestos, Flexible Graphite, Red Rubber, Neoprene, Nitrile, Viton, Teflon®, filled Teflon®, Cloth inserted, Silicone, Vegetable fiber, Ceramic and Teflon® Envelope Gaskets. Etc.

Die Formed Grafoil®

Our Grafoil die formed sets are manufactured on precision equipment, with close tolerance heat tempered molds. Ideal for valve stem packing, and high temperature applications. Nothing works better than Grafoil® sets. We have a complete selection of sizes, shapes and materials.
