

THE WINNER!

BELTING INDUSTRIES

CARPET INDUSTRY

Spindle Drive Belts for:

VOLKMANN

SAUER

TWISTERS

TWO NEW CONSTRUCTIONS

KEVLAR

- Low stretch - 1/3 the stretch of polyester
- High Speed-good for speeds exceeding 8,000 RPM
- Long Life-Flexible
- Excellent edge wear resistance
- Excellent in Mule Drive Systems
- Reduce Maintenance
 - 1 time re-tensioning after install

POLYESTER

- Longer life - with new polyester yarn construction
- Flexible
- Excellent in Mule Drive Systems
- Low stretch
- Excellent edge wear
- Cost efficient - less expensive than Kevlar

800-THE BELT (843-2358)

Belting Industries, a family owned company, has been supplying the textile market for 50 years.

During this period the textile industry has adjusted to changing demands to meet market needs. Belting Industries has improved manufacturing techniques to permit belts to run at higher speeds for longer lifecycles with less stretch. With these improvements it is possible to meet the changing demands.

Belting Industries is the leading USA manufacturer and designer of Flat Woven Endless Belts, Round Belts, Foam Belts, SureGrip Series, Stretch Belts and specialty products.

For 50 years Belting Industries has been manufacturing belts for textile, banking, communications, mail handling, packaging and vending markets.
