

Model 9066 Eight Channel RJ45 (2 Pair) 10 Base-T A/B Switch

Model 9066 Features

- Each channel allows access to two networks from one computer or workstation
- Manual Operation via Front Panel Pushbuttons
- Eliminates the need to plug and unplug cables
- No power required.
- Size: 19.0" W X 3.50" H X 8.0" D
- Transparent to data format.
- Standard & custom RJ45 cables available from Electro Standards in multiple colors and in any length! Call Electro Standards, 401-943-1164.

Each channel enables access to two 10 Base-T networks. The Model 9066 A/B Switch allows the user to reroute data between two networks with a simple push of a button. The pushbutton face changes color to indicate A or B switch status. The unit supports 4 pins of the RJ45 interface. No need to plug and unplug cables thereby eliminating connector wear.
