

Model 8067 2-Terminal Barrier Strip A/B/C/D Switch, Manual, Desktop

INTRODUCTION

The Model 8067 allows the user to access four devices connected to the A, B, C and D 2-Terminal Barrier Strip ports from one device connected to the COMMON 2-Terminal Barrier Strip port. Switching connection between devices is quickly and easily accomplished via the front panel rotary selector - No need to plug and unplug cables. The Model 8067 is packaged in slim desktop style enclosure.

FEATURES

- Allows quick connection to any one of four 2-Terminal Barrier Strip interface devices from one COMMON device.
- Manual operation via front-panel rotary switch.
- Both pins of the 2-Terminal Barrier Strip are switched.
- High quality sealed switch with self-wiping low impedance contacts.
- Eliminates the need to connect and disconnect cables.
- No external power required.
- Attractive anodized black box packaging provides EMI/RFI shielding.
- Lifetime guarantee against manufacturing defects.
- Custom length spade lug cables available for your switch installation.
