

# Master Series®

Multi-function temperature and process controls for demanding applications

## PRODUCT FEATURES

### Built to Order Philosophy:

- Per customer specs
- Prompt delivery
- Proven designs
- Turnkey solutions

### Custom Designs:

- Inputs
- Outputs
- Power supply
- Packaging
- Communications interface
- Ranges

### Standards:

- RoHS compliant available
- NIST traceable calibration

## PRODUCT SPECIFICATIONS

- Multiple temperature, humidity, pressure, analog, digital and switch inputs
- Multiple relay, SSR, triac, FET, Analog, digital, VDC and transmitter outputs
- Power options include VAC, VDC, and universal
- Any style connector including amp, molex, deustch, plug-in, and fast-on
- Computer interface includes RS 323, RS 485, USB, Ethernet, and Canbuss
- Custom PCBs and housings
- Display options include on-board and remote LED digits or lights, LCD, and vacuum fluorescent
- Many more customer defined options available

## PRODUCT COMMITMENT

### Built to Last:

- 4 Year warranty
- Rugged construction
- Durable designs
- Wide ambient ranges available
- Encapsulation available
- MIL-SPEC components available

### Full Service Factory Direct:

- Sales
- R&D
- System analysis
- Product design
- Manufacturing
- Quality control
- Warranty support
- Customer support

# Master Series® Temperature Control Line

Thermalogic's Master Series® controller line offers the ability to combine numerous features & functions in a single control package, eliminating the need for multiple discrete components, messy wiring, & excessive mounting space. We offer standard platforms which can meet most applications or we can design a custom control unit to your exact system requirements. Our Master Series® allows you to combine any combination of specifications from our extensive library of products into a single, neat, & comprehensive package.

## Examples

**Temperature, Humidity, Process Controls, Sensors & Transmitters**  
**Design, Engineering, Manufacturing for OEMs & Volume Users**
