

### REPLACEABLE PAD OVERVIEW

# Rest Pads & Gripper Pads

#### **Solid Carbide**

High impact carbide pads. Can be brazed or bonded into place.

#### **Carbide Tipped**

Constructed with a high impact carbide pad brazed to a heat treated alloy steel body. Mounts with tapped hole or a flat on the outside diameter for set screw mounting.

#### **Hardened Steel**

Made from 8620 steel, carburized and hardened to Rc 58/60 .050" case with black oxide finish. Mounts with tapped or counter bored hole.

#### **Non-Marring Delrin**

Manufactured from white Delrin.
Mounts with counter bored or tapped

#### **Stainless Steel**

The pad is made from 17-4 stainless steel, hardened to Rc 43/46. Mounts with tapped or counter bored hole.

#### **Abrasive Diamond Surface**

The abrasive surface is permanently fused to a 17-4 stainless steel pad, hardened to Rc 43/46. The surface texture is comparable to a 100 grit abrasive. Mounts with tapped or counter bored hole.

### Sof-Top™ Urethane Surface

The urethane surface is permanently bonded to a 300 series stainless steel pad. The urethane provides excellent protection against damage on delicate work surfaces. They are available in three durometers. Tapped hole mounting.

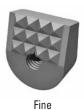

### TOOTH PATTERN SPECIFICATIONS

Throughout this catalog, you will find reference to tooth patterns on all serrated grippers. Please use the chart below for specific information regarding these tooth patterns. If additional information is required, please contact us.

# **Angle Grippers**

Straight

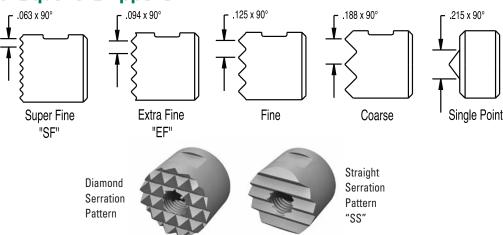

Angular Straight

3 Point / 90° Straight

# **Round and Square Grippers**

### REPLACEABLE PAD OVERVIEW

### Serrated Gripper Pads

#### **High Speed Tool Steel**

Round, square, edge, and angle grippers manufactured from M-2 high speed tool steel, hardened to Rc 60/62 with black oxide finish. Mounts with tapped hole, counter bored hole or a flat on the outside diameter for set screw mounting.

### **Carbide Tipped**

Round, square, and angle grippers constructed with a high impact carbide pad brazed to a heat treated alloy steel body. Mounts with tapped hole or a flat on the outside diameter for set screw mounting.

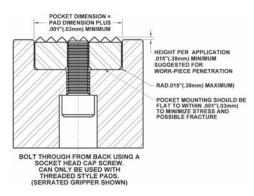

#### **Solid Carbide**

Round and square grippers manufactured from high impact carbide in a solid gripper pad or as a solid gripper body with a threaded brazed-in steel insert. Mounts with tapped hole or a flat on the outside diameter for set screw mounting.

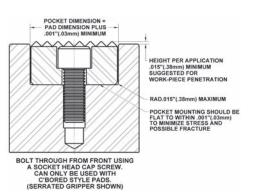

# GRIPPER PAD AND REST PAD MOUNTING APPLICATIONS AND SPECIFICATIONS

Below are some of the more common mounting applications for fixed grippers, rest pads and carbide pads shown in this catalog.

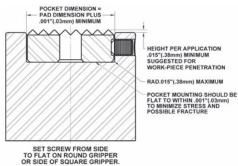

Round or square grippers and rest pads with tapped blind-hole or through hole tap.

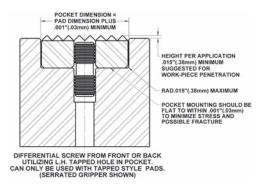

Round or square grippers and rest pads with counter-bored hole.

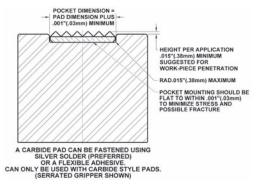

Round grippers with flat on the O.D. for set screw mounting, or square gripper.

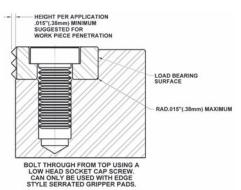

Round or square grippers with through tapped hole.

Round or square carbide pads.

Counter-bored edge grippers.

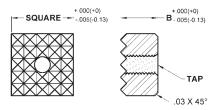

### **FIXED GRIPPERS**

# Square Style | Tool Steel | Serrated | Tapped Hole | Inch & Metric

Made from M-2 high speed steel. Hardened to Rc 60/62 with black oxide finish. Serrated for positive holding in tough applications. Thru-hole tap. See page 90 for tooth pattern specifications. See page 91 for mounting specifications.
